

PART NUMBER: **C1518CMB**

PRODUCT: **Center Bumper LED Bracket**

APPLICATION: **15-C Chevy HD  
2500/3500**

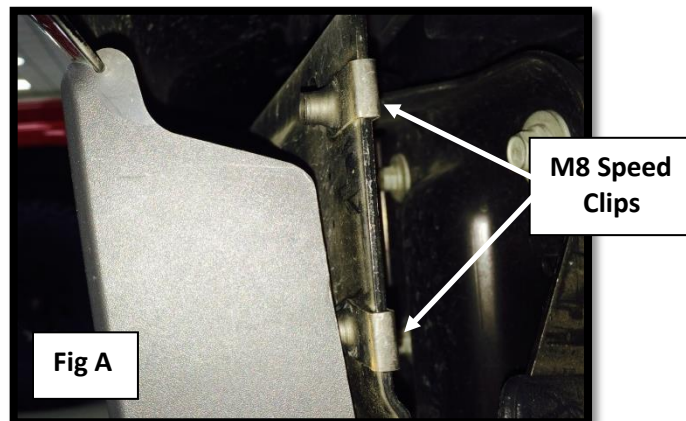

Parts Included:	Qty
LED Bumper Bracket	1
<b>Hardware Pack # C15CMB-KIT</b>	<b>1</b>
M8 SPEED CLIPS	4
M8x25mm Hex Head	4

**NOTE:** The C1518CMB Bracket is designed hold many styles and brands of lights. Check the factory location provided for fitment.

**Step 1:** Locate the four factory mounting holes in the bumper opening. There will be two just inside to the left and right hand side. Install the supplied M8 speed clips in all four locations.

**Fig A.** (NOTE: Be sure the threaded part of the clip faces towards the front of the vehicle.)

**Step 2:** Carefully fit the LED bracket through the bumper opening with the multi-mount slots facing upwards and align the mounting holes with the M8 speed clips. **CAUTION:** Be careful not to damage the innercooler while fitting the LED bracket through the bumper opening.

**Step 3:** Install LED bracket using the supplied M8x25mm Hex head bolts and fully tighten.

**Step 4:** Next, mount your light/lights to the multi-mount slots provided in the bracket. (NOTE: The install of some LED lighting may require the removal of the bumper.)
